WE SELL THE TOP BMX BRANDS IN THE WORLD

WE BUILD TO WIN. WE BUILD TO LAST.

We build custom bikes for adult and youth riders using premium frames and parts. Bikes can be modified to last most youth riders for three to four years by changing certain parts as they grow. It's an economical solution to keeping youth riders on premium bikes for several years instead of purchasing new, lower quality bikes every one or two years.

And of course, for adults, we can build the BMX you *still* haven't stopped dreaming about.

- We are a BMX-exclusive pro shop in Saskatoon, Saskatchewan that sells finished bikes, custom-built bikes, and premium parts all over Canada.

- Customers all over Canada count on us to find them the parts they need. If we don't have what you need in stock, chances are strong we'll be able to get it for you. And FAST.

- Buy bikes and parts through us and you'll save on shipping, customs, and duties.
